HBacc Project Starter Sheet

Festival Fashion

The community youth organisation *Inclusive Now!* has asked design students to contribute ideas for an upcoming festival with the theme 'Diversity'

It would like to promote the festival through a range of products targeting an audience of young people aged 11-16 years olds.

Investigation:

Research and design a new Textiles produce which promotes Diversity. This could include:

- Item of clothing to be sold or worn at the festival
- An accessory to be worn at the festival
- Decorative textiles to be used at the festival

In your design work you must:

- Use images or language appropriate for the audience
- Promote the value of 'Diversity' in the community
- Present a positive and optimistic message.
